Floor area ratio	1.25	4	CONFLICT

Overall: **conflict**. Values are checked against the ordinance text and the zoning code; unverified drivers make the offer provisional.

Assessment

RM-3-7 zone allows medium density residential with limited commercial uses. Key standards: 10/20 ft front setbacks, 5 ft side/rear setbacks, 40 ft/3 story height limit, 1 unit per 1,000 sq ft density, 50% lot coverage, 1.25 FAR, and 1 parking space per unit. Lot must be at least 25 ft wide and 50 ft deep.

Suggested next step: Negative/zero residual at current assumptions — revisit unit count, costs, or ADV.
